

Model 9216

CLASS Featured Set

By letting you take advantage of Caller ID and other helpful telephone company services, the 9216 helps you gain control over your calls—and your time.

Key Features:

- **Caller ID**—lets you see who's calling before you answer*
- **CLASS/Voltage Message Waiting indicator**—shows when a Voice Mail message is waiting*
- **10 programmable memory keys**—for quick access to features* or frequently called numbers
- **Two-line display with Contrast key**—shows the number dialed and other helpful information
- **Call Log**—stores name, number, date, and time of 25 callers*
- **Last-number redial**
- **On-hook dialing**—lets you dial and listen without picking up the handset

ASTRA
Telecom

To succeed in today's hard-driving business environment, you need a telephone with up-to-the minute features—one that makes communication as easy as possible. The 9216 is that telephone.

Designed to support powerful Custom Local Area Signaling Services (CLASS) from your telephone company, the 9216 gives you more control over incoming calls and more convenience when you make calls. The 9216 can be used with Centrex services as well as standard telephone service in your home or office.

When used with Caller ID, the 9216 shows the name and number of the caller, so you can be prepared with client files or other information when you answer*. Even if you're out of the office, you won't miss business opportunities. The Call Log automatically stores the name, number, date, and time of each of your last 25 callers*. To return the call, just press the Dial key.

The 9216 helps you get more out of other telephone company services, too, like Voice Mail. The Message Waiting indicator* lets you know when you have a message waiting. Program one of the memory keys with Voice Mail access, and you can check messages at the touch of a button. On-hook dialing means you can dial and listen without ever picking up the handset.

Whether you work from your home or in a large or small office, the 9216 can help make your business communications—and your business—more efficient than ever before.
